

LONG-LASTING CONTROL THAT'S RIGHT ON TARGET

Strength, speed and staying power can give you a competitive edge against tough pests. Demon® WP insecticide from Syngenta, an easy-to-use wettable powder formulation with the active ingredient *cypermethrin*, provides fast-acting results and long-lasting power against cockroaches, spiders, scorpions and other pests.

GOOD THINGS COME IN CONVENIENT PACKAGES

Demon WP is available in convenient, water-soluble packets, eliminating the need to measure. The wettable powder dissolves quickly in water for an ideal suspension to prevent application equipment from clogging. Additionally, packets are easy to store, transport and handle.

Follow these simple steps:

- ▶ Drop packet(s) into the appropriate amount of water per the labeled use rate
- ▶ Once the packaging dissolves, you're ready to apply

For tips on mixing, agitation and more, watch our dry-formulation product video by scanning this QR code

BROAD USE, LOW RATES, QUICK KNOCKDOWN

- ▶ High insecticidal activity and long-lasting residual control with low use rates
- ▶ Quick knockdown of insects like cockroaches that ingest the insecticide while grooming
- ▶ Labeled for control of 20 additional pests including ants, centipedes, fleas, mosquitoes, wasps and ticks
- ▶ Ideal for cockroach clean-out, spiders and other pests in residential and commercial, non-food-handling areas
- ▶ Easy-to-use formula dissolves quickly, creating an ideal suspension that won't clog equipment
- ▶ Versatility allows use on porous and non-porous surfaces, as well as indoors as a crack-and-crevice application
- ▶ Convenient packaging as water-soluble packets
- ▶ Can be used as part of the SecureChoiceSM Spider Assurance Program for guaranteed spider control

APPLICATION

- ▶ Indoors: apply as a crack-and-crevice or spot treatment
- ▶ Outdoors: apply as a broadcast treatment up to a maximum height of 3 ft. on surfaces of buildings, porches, screens, window frames, eaves, patios, lawns and other areas where pests are found
- ▶ Per label directions, test a small area before treatment to avoid damage to paint or siding

STRONG CONTROL THAT STANDS OUT

In field trials, Demon WP maintains stronger control longer than competitive insecticides.

48-hour mortality of German cockroaches after exposure to treated surface

GUARANTEED SPIDER CONTROL IS WITHIN REACH

The SecureChoice Spider Assurance Program recommends applying Demon WP with either Demand® CS or Tandem® insecticides for a proven, significant reduction in spider populations. With recommendations that have been thoroughly field-tested by technical experts, you can feel confident offering this assurance program as an add-on service to your customers. If the appropriate applications of these products fail to provide adequate reduction of spiders during the specified treatment period, Syngenta will provide the appropriate quantities of the products for retreatment. Visit [SyngentaPMP.com/Spider](https://www.syngentapmp.com/spider) for more information.
