

TAKE PEST CONTROL KNOCKDOWN TO THE MAX.

- ▶ Powered by the active ingredient, *cypermethrin*, for broad-spectrum control of more than 30 pests
- ▶ Fast-acting formulation with quick knockdown
- ▶ Can be used indoors as a crack-and-crevice treatment, as well as outdoors as a spot or crack-and-crevice treatment or as a broadcast perimeter treatment
- ▶ Cost-effective product with dependable results

Performance you can Trust

Insects can thrive on your customers' properties if your treatment isn't powerful or consistent enough. Demon® Max insecticide from Syngenta provides residual pest control for more than 30 pests including beetles, crickets, wasps and termites.

The active ingredient in Demon Max, *cypermethrin*, prevents the transmission of nerve impulses within an affected insect. This means that when an insect comes into contact with Demon Max, it is rapidly paralyzed by the product, resulting in effective pest control.

Confidence in Broad Pest Control

Demon Max is labeled to control the following insects:

- ▶ Ants
- ▶ Ant mounds
- ▶ Asian cockroaches
- ▶ Bark beetles
- ▶ Bees
- ▶ Borers
- ▶ Boxelder bugs
- ▶ Carpenter ants
- ▶ Carpenter bees
- ▶ Centipedes
- ▶ Chiggers
- ▶ Chinch bugs
- ▶ Cockroaches
- ▶ Crickets
- ▶ Earwigs
- ▶ Elm leaf beetles
- ▶ Fire ants
- ▶ Firebrats
- ▶ Fleas
- ▶ Flies
- ▶ Ground beetles
- ▶ Gypsy moths
- ▶ Millipedes
- ▶ Mole crickets
- ▶ Mosquitoes
- ▶ Pillbugs
- ▶ Scorpions
- ▶ Silverfish
- ▶ Sowbugs
- ▶ Spiders
- ▶ Ticks
- ▶ Wasps
- ▶ Wood-infesting beetles

Consistent Features for your Business Needs

- ▶ Trusted by pest management professionals for years, Demon Max offers reliable performance features that pest management businesses can provide for their customers:
- ▶ Fast-acting formulation
- ▶ Excellent mixing qualities, including no sedimentation
- ▶ Active ingredient with low vapor pressure
- ▶ Labeled for pre- and post-construction control of subterranean termites, including Formosan termites

Stays Put in Wet Conditions

Demon Max binds to soil and organic matter, lessening the likelihood it will be washed away from its desired application area and into water sources. Applying Demon Max in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash it off the treatment area.

Flexible Treatment, Indoors and Outdoors

Demon Max can be used for the following treatments:

- ▶ Treatment to soil or vegetation around structures
- ▶ Applications to lawns, turf and other vegetation
- ▶ Applications to building foundations up to a maximum height of three feet
- ▶ Pre- and post-construction termite treatments
- ▶ Indoor spot or crack-and-crevice treatments
- ▶ Outdoor spot or crack-and-crevice treatments and perimeter broadcast treatments

Syngenta goes further to ensure that your business is successful. Use Demon Max for the efficient knockdown and residual control you need to help maintain a pest-free environment for your customers.
